

DRUPAL CAMP SPAIN 2011

October, 1st - 2nd **Sevilla**

What is a Drupalcamp?

Drupalcamp Spain is a national congress, with a technological background, where web reference professionals, students and companies meet in Spain to share ideas and knowledge.

Drupalcamp Sevilla will be the second meeting of our congress, has high expectations after the great success of the inaugural meeting, Drupalcamp Barcelona 2010, which took place in Barcelona in February 2010.

Drupalcamp Barcelona was a success at all levels: organizational, media impact and technical quality. More than 375 web professionals and amateurs participated and heard more than 40 high quality presentations and discussions. We were pleased that our sponsors included around twenty IT companies with a strong presence and business volume on the net.
